

Matt-Cyn Farms Rustic Garden Soaps

Each Matt-Cyn Farms soap “flavor” is made right on the farm, and is infused with homegrown or wild-crafted flowers, seeds, veggies, fruit, honey from local beehives, and/or Pacific Northwest native plant species harvested specifically to add texture, color and scent to the soap. Stored on a soap saver, these creamy-sudsy bars will last about a month with a daily shower, or longer if used as hand soap. All our soaps are made with a basic recipe of olive, coconut and palm oils. Sodium hydroxide is mixed with rainwater that is actually captured right at the farm! Pure essential oils are subtly added to enhance the aromatic experience. Stop by the Corvallis Farmers Market for a sniff! Here’s a bit more about our selection of rustic garden soaps:
